## Evening Brief

Date: Wednesday August 7<sup>th</sup>, 2019

---

### Weather Summary

**\*\*\* High Risk for Lightning on Thursday \*\*\***

**\*\*\*High Risk for Wind on Friday and Saturday \*\*\***

Thunderstorms will become more widespread across the geographic area on Thursday with storms becoming wetter over Utah, northeast NV and portions of the central Idaho mountains. Storms will be on the drier side over northwest NV and southwest Idaho on Thursday.

### Preparedness Levels & Great Basin Fire Activity (from WFDSS)

Great Basin	3	Light-Moderate Initial Attack Activity
National	3	New Fires and Acres: 16 fires 47 acres; 60,741 acres large fire growth

---

### Great Basin Fuels/Fire Potential

ERCs remain low across Utah, eastern NV and southeast ID in response to recent precipitation. Fire danger still remains elevated across Nevada and parts of western/southern Idaho where conditions have remained drier.

Monsoonal moisture will bring thunderstorms to much of the Great Basin mid to late week, with the greatest precipitation amounts across the eastern part of the area.

Drier and breezy weather will impact the area later this week into the weekend with fuels drying out again.

Sagebrush live fuel moisture has been decreasing over the western half of the Great Basin and is near or below seasonal low values.

### Resources:

#### Aviation within the Great Basin

- 1 VLAT's, 5 LATs, 4 CL-415
- 27 SEATs, 3 Fire Bosses
- 8 Type 1 Helicopters / 8 Committed
- 6 Type 2 Helicopters / 6 Committed
- 19 Type 3 Helicopters

#### Crews Committed within the Great Basin

- 23 IHCs Committed / 1 Available
- 34 T-2 IAs Committed / 0 Available
